Profile

Creative, detail-oriented designer with 9 years of professional experience in digital art, graphic design and 3D modeling, including 4 years at interior design studios in Ukraine. I turn plans, sketches and briefs into photoreal interiors, brand identities and printable objects.

Experience

3D designer · AI modeling & 3D printing

Independent · Spain · Present

- AI-assisted 3D modeling with ChatGPT and Astra, from concept to finished mesh.
- Advanced 3D printing: articulated, print-in-place models designed for FDM printers.

3D modeler & interior visualizer

Interior design studios · Ukraine · 4 years

- 3D objects and complete interiors built to client specification in 3ds Max.
- Photoreal visualization with V-Ray for client presentations and approvals.

Graphic designer & digital artist

Freelance · 9 years

- Outdoor advertising: lightboxes, banners, signage.
- Logos, corporate identity and branding strategies for client products.
- Digital art, collage and custom visualizations for artistic concepts.

Tools

3ds Max · V-Ray · Photoshop · Illustrator · ChatGPT · Astra · FDM 3D printing

What I deliver

- Photoreal interior renders
- Walkthrough & turntable videos
- 3D furniture & objects
- Logos & brand identity
- Signage & outdoor ads
- Digital art & collage

Now

Using ChatGPT and Astra to model faster, so the time goes into proportions, materials and detail.

Designing advanced print-in-place pieces: joints and tolerances built into the model.

Selected interiors: loft study, restaurant, bathroom · 3ds Max + V-Ray
